54.25c Councillor – Mandates

Proposal -

That any Councillor shall have the mandate to explore all avenues that can potentially improve the village in which we live.

This may include exploring and information gathering for capital expenditure projects including estimated costings to then be brought back to Council for consideration.

It may also include visiting and discussing potential projects and schemes with members of Bradford District Council, Ward Councillors, Contractors from private companies and others to allow proposals to be brought to Council for consideration.

All Councillors understand when collecting information and costings for such projects that they don't have the mandate to make any commitments whatsoever at any meetings.

All projects and estimated costings can only progressed if they are discussed and meet approval by Full Council.

Please remember any items above £500.00 – less £4000.00 will require the clerk to try to obtain three quotations or estimates.

Councillors with information should report any findings back to the Clerk and if appropriate request for the information to be an agenda item at the next full Parish Council meeting.

Kind regards

Tito Arana
